FINE FURNITURE CABINETRY IN AUTHENTIC PERIOD STYLING

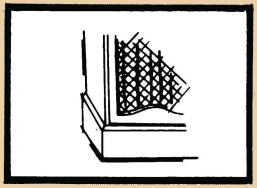
The Art of Selecting Finest Woods. Zenith selects only the best quality wood to match its unique cabinet design. Select hardwood solids and genuine veneers are expertly shaped into the authentic period styling of the cabinet.

In the art of fashioning, assembling and fitting, the remarkable skill of the cabinetmaker comes into full play. Style and design is emphasized by choosing proper accents. Finally, great care is taken to achieve lasting beauty and protection through the art of fine finishing.

Introducing the artisan series

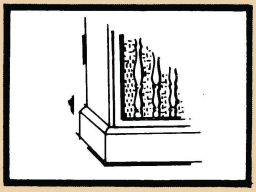
CREDENZA DESIGN*

Elegantly styled fine-furniture cabinetry beautifully fashioned in authentic period styles . . . compact enough to fit in places where space is at a premium . . . yet featuring full-bodied sound only a console stereo can provide.
*Models Z922, Z924, Z927



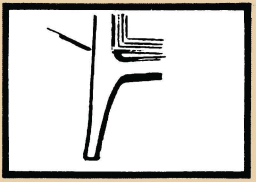
FRENCH PROVINCIAL STYLE

Sophisticated and graceful of line, French Provincial style is characterized by the Cabriole Leg tapering to foot and the serpentine curve of the apron.



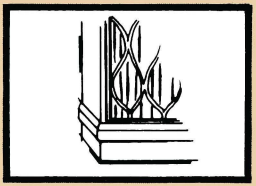
EARLY AMERICAN STYLE

Early American style may appear with full base or large, carved foot—with or without Gallery. Possesses a rustic, rugged simplicity.



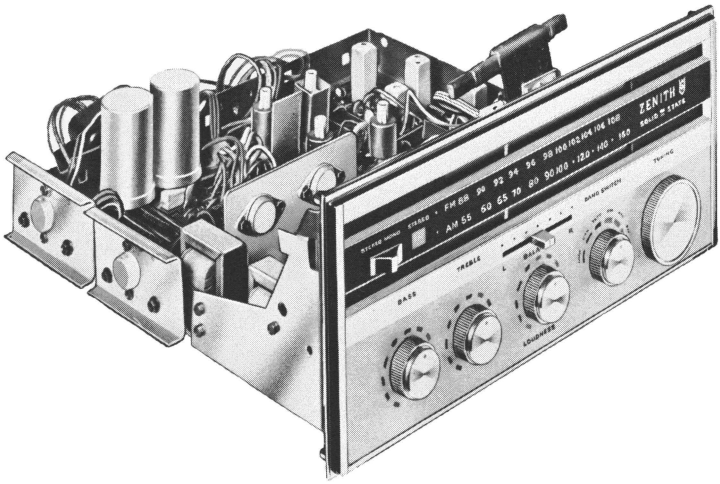
CONTEMPORARY/MODERN STYLE

With the simplicity of the Danish Modern style curvilinear fashion, it is really a period style in transition. Bold and broad, yet modified and restrained.



MEDITERRANEAN STYLE

Indicative of an "Era of Opulence," Mediterranean style takes its place as the new design of elegance. You'll see Mediterranean style many ways—in both credenza and regular full-base versions.



New . . . Powerful. . . ZENITH® **SOLID-STATE**

60W AMPLIFIER AND SOLID-STATE TUNER

For greater sound reproduction

Delivers 60 watts of peak music power, instantly. Completely transistorized. Engineered to assure top performance and greater stereo enjoyment. Audio amplification system generates a minimum of heat for longer amplifier life . . . virtually eliminates audible hum and distortion. Essentially flat frequency response.

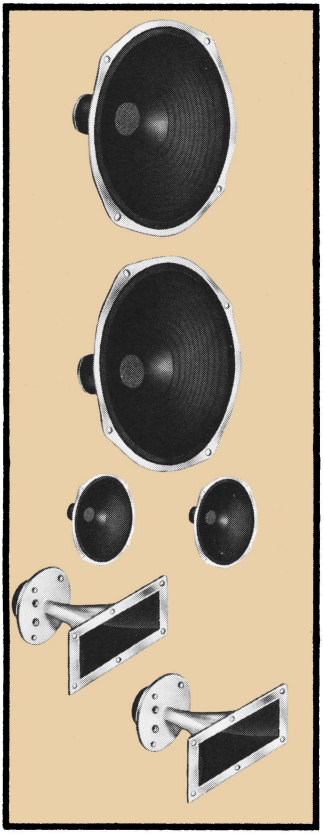
Transistorized — 4 power output; 2 driver; 2 first audio; and 2 pre-amp. Dual-channel amplifier system features include variable input impedance . . . voltage is regulated to keep internal power constant. You get clearer sound with less distortion at all listening levels.

Zenith's all new Solid-State 60W Amplifier provides 6 important stereo advantages

1. Brings into your home a greater range of sound — 60 watts peak music power.
2. Clearer sound reproduction with less distortion — provides a greater dynamic range and amplifies high peaks of sound with less distortion.
3. Instant warm-up on phono and radio — eliminates annoying delay while waiting for unit to warm up.
4. Cooler operating temperatures — use of transistors reduces the possibility of deterioration of components and cabinet because of heat.
5. Longer amplifier life — solid-state circuitry provides unsurpassed reliability and outstanding performance and greater dependability.
6. More economical performance — solid-state amplifier circuitry uses less electrical current than conventional amplifiers.

For the world's finest sound enjoyment

ZENITH® 6 SPEAKER SOUND SYSTEM

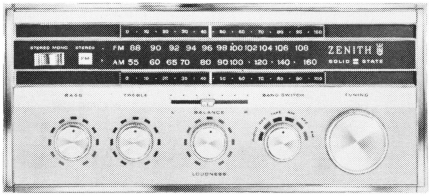


Six Zenith Quality High Fidelity Speakers — two giant size 10" woofers, two exponential horns and two 3½" high-fidelity cone-type tweeters.* Alnico 5 magnets. Broad range response of 60 to 15,000 CPS.

Tape Input and Output Jacks for stereo and monaural tapes.

*Model Z920 features two 10" woofers and four 3½" cone-type tweeters. Frequency response of 60-13,000 cps.

New, smartly styled, tuning convenience

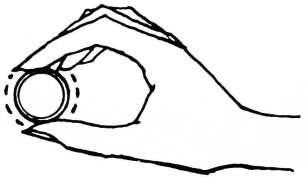


ZENITH

DELUXE CONTROL PANEL

Illuminated for faster, easier tuning

The Zenith Deluxe Control Panel features handsome, advanced styling for the most up-to-date look in home consoles. 6 position rotary selector switch—lets you select phono, off, tape, AM, FM, FM-AFC. Precision vernier tuning with slide rule dial scale makes station selection quick and accurate. Stereo/Monaural selector switch lets you easily select either function. "Stereo" or "Monaural" illuminates to indicate which playing mode has been selected. Stereo indicator light goes on when you have tuned an FM station that is broadcasting stereo.



ZENITH STEREOPHONIC SOUND CONTROLS

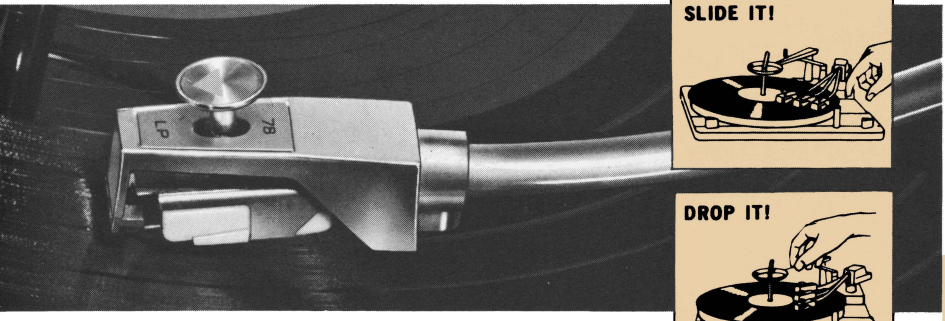
The Zenith control panel has four control knobs for precise adjustments. New slide-action balance control provides exact visual check of balance between right and left stereo channels. Loudness control lets you select desired loudness. Bass control permits adjustment for desired bass response. Treble control can be used with bass control to achieve a wide variety of tonal effects.

Develops the finest sound reproduction in a home console stereo

EXCLUSIVE ZENITH®

MICRO-TOUCH® TONE ARM

The most perfectly balanced tone arm in complete home stereo



Plays your records a lifetime with virtually no record wear!

It's impossible to accidentally ruin a fine stereo record

MICRO-TOUCH® 2G TONE ARM . . .
A ZENITH-QUALITY EXCLUSIVE

Here is the most perfectly balanced tone arm in home console stereo. Provides the finest stereo separation, truest frequency response. Exerts a mere 2 grams of pressure on records, ends possibility of scratched grooves.

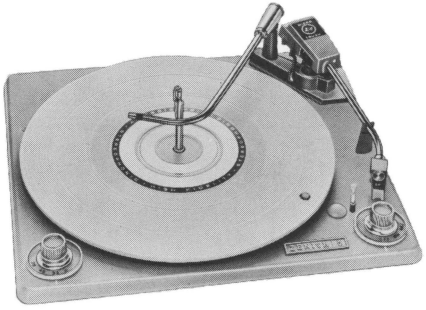
Amazing 2G "Free-Floating" Cartridge — exclusive needle yoke permits ultra-high compliance for unsurpassed tracking accuracy. Diamond stylus for stereo and LP; 3-mil Mfd. sapphire tip for 78 rpm discs.

Non-breakable Flex-Guard Needle Shaft — bend or twist it. Flex-Guard needle shaft always returns to its playing position.

ZENITH® STEREO PRECISION RECORD CHANGER

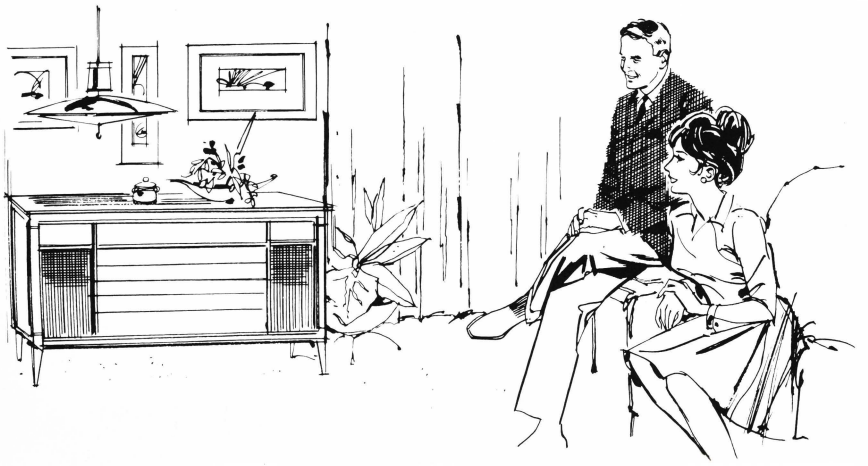
World's finest performing automatic record changer in complete home stereo instruments

A Zenith quality engineered component specifically designed to complement the Zenith Micro-Touch® 2G Tone Arm.



Plays Four Disc Speeds — automatically plays six each 33⅓; 45; 78; 16⅔ rpm records. Smooth, quick-acting changer mechanism. Automatically intermixes 10″ and 12″ discs of the same speed. Automatically shuts off after last record has been played. 45 rpm adapter is included. Stylus Brush.

Zenith Quality Features Include: On/Off and record-reject control. Separate dial for record-speed selection. Heavy-duty turntable motor shock mounted to reduce rumble and give smooth, constant speed for stereo listening. Soft rubber turntable mat won't attract lint.



Zenith . . . Pioneer and world leader in FM radio . . . Presents new

ZENITH® SOLID-STATE STEREO FM RADIO

World's Finest Stereo FM Radio

Incorporates a Zenith pioneered and developed Stereo FM system on which FCC approved Stereo FM broadcasting standards are based. Provides the finest Stereo FM and conventional static-free, high fidelity FM. Outstanding standard AM broadcast reception. Automatic Frequency Control assures "drift-free" FM. Broadband FM/RF Stage. Wavemagnet® AM antenna. Illuminated FM and AM slide rule dial.

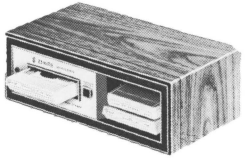
Specifications subject to change without notice.

ENJOY THESE EXCLUSIVE FEATURES WITH EVERY ZENITH STEREO CONSOLE

ZENITH STEREO SOUND ACCESSORIES* LET YOU CREATE YOUR OWN DIMENSION IN SOUND

Top-of-Set Stereo Tape Cartridge Players —utilize console's amplifier and speaker system. Have own AC power cords. Cassette Unit, Model Z634W. Features fast forward and reverse, plays all cassette tape cartridges.

8-Track Unit, Model Z635W. Has tape track selection switch, accepts all 8-track cartridges.



Remote Speaker Terminals—permit use of optional remote speaker for four sources of sound.

Deluxe Speaker Units, Model S9017 features one giant 12" high compliance woofer and one deluxe exponential horn.

Verti-Plane Speaker Units, Model S9012J—compact, slim design with full-frequency range response. Each unit houses a large 14" rectangular speaker.

*all optional at extra cost.
